

### **Nursery Summary (18th to 22nd of May)**

In Literacy we have been learning about the sound 'v'. We have been doing several pencil control sheets and writing our own 'v'.

In Maths we have been learning about how numbers identify how many objects are in a set. The children completed several different worksheets to enhance this.

Our focused activity continues with 'Under the Sea'. The children have coloured in different sea creatures. Some of them drew their own and wrote the name of the creature underneath.

### **Next Week**

We will be learning the 'x' sound in Literacy. I will be doing individual assessments with the children.
